## FUTURE HOMEMAKERS OF AMERICA

Future Homemakers of America is the national organization of students from forty-five states. Fuerto Rico and Mawali, who study homemaking in junior and senior high schools. We work together for better and happier home life for every one. We think that helping to make happy homes now and in the future, is the most important thing youth can do in a democracy.

Louisiana's Home Foonomics clubs were known as Junior Homemakers, the organization developed into one of the strongest in the nation. In fact, for a period of years, Louisiane had the honor

of having the largest membership in America.

Our organization was known as Junior Homemakers until June. 1945. That year Louisiana's Junior Homemakers clubs accepted the

name Future Homemakers of America.

The emblem of the Future Lomemakers of America is octagoral in shape and hears the name of the organization, Future Homemakers of America around the top of the plane, while around the liwer side of it is the motto, "Toward New Horizons." In the center, there is a house supported by two hands which symbolizes that the homes of America are in the hands of its youth.

The colors, red and white, are symbolic of youth; our flower, red rose is symbolic of vibrant, glowing health, a necessary attri-

bute for happiness and efficiency in home and group life.

Our motto "Toward New Horizons" expresses the purphe of the organization--learning to live better today in order that our lives and those of our families may be better tomorrow.

The Creenwood Chapter has been on the Standard of Excellence

for ten years.

Our chapter sent Martha McClunev to ransas City, Missouri last July to represent us there at the National Convention.

Soem of the Preenwood Phapter's projects for the past few years are. Remodeled bedroom and sick room, made curtains for Recreation Room and helped prepare the lounge for the teachers.

Betty V. Brooks served as North Louisiana District F.H.A. secretary. Three girls of our chapter served as officers of the Caddo F.H.A. They were Martha McCluney, Frances Margard will serve as Fresident and Elsie Meyer will serve as Vice-President of the Caddo F.H.A. for 1949-50. Our local officers are Martha McCluney. President; Betty Bryson, Vice-Fresident; Frances Martha McCluney. President; Betty Bryson, Vice-Fresident; Frances Martha McCluney. Elsie Meyer, Treasurer; Betty Jo Cobb, Farliamentarian; Betty V. Brooks, Frogram Chairman and Manda Hines, Reporter. Our first Chapter Mother is Mrs. Tom Bryson.

The Greenwood Chapter has made great progress for the last few years under the wise leadership of our advisor, Mrs. Ethel Spencer, and we hope to make further progress "Toward New Horizons."

Chapter Mother -- Jania Bryson Sponsor -- Ethel Spencer

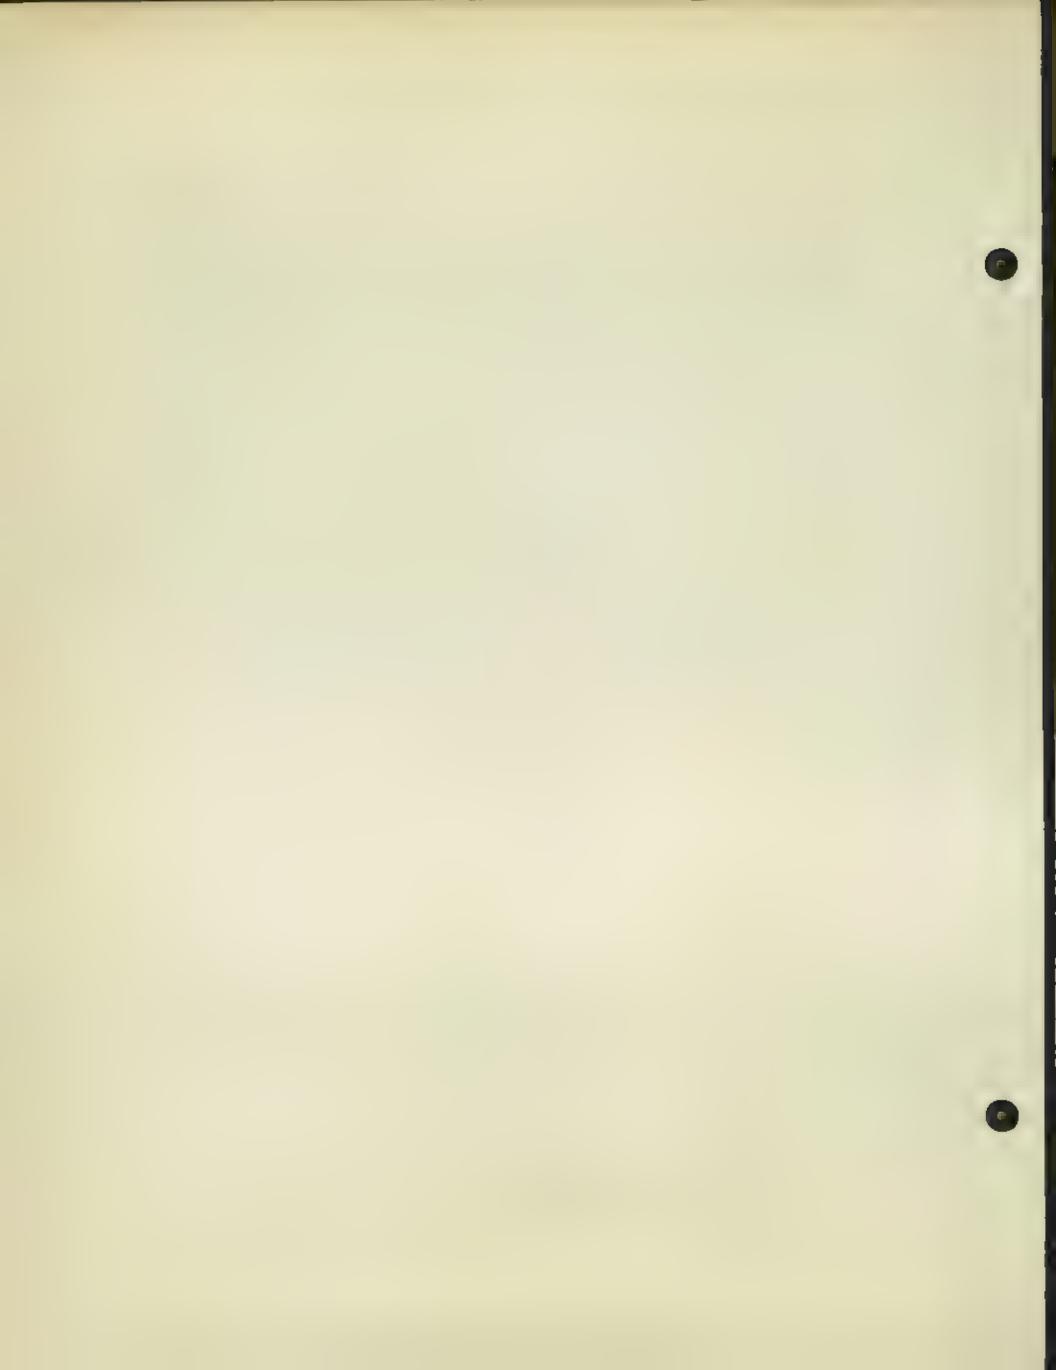

## THE F.F.A. CHAPTER

The Greenwood F.F.A. Chapter was organized in 1946. The number of members then was thirty-eight which was a very good start for the new chapter. The boys were under the supervision and leadership of Mr. D. L. Kennedy. They advanced far beyond their expectations in the improvement of africulture and the development of self-leadership.

The Chapter in the Fresent "49" has really been progressing in its farm improvements. At the first of the year there was a Program of Work made out to take care of that year. The main factors under this Program of Work are: Supervised Farming, Community Service, Cooperative Activities, Leadership, Earnings and Savings, Conduct of Meetings, Scholarship, Recreation and General Activities. There is a special committee in charge of each main factor. These committees work very hard to reach the fulfillment of the Program of Work to their chapter rank in the "A" class.

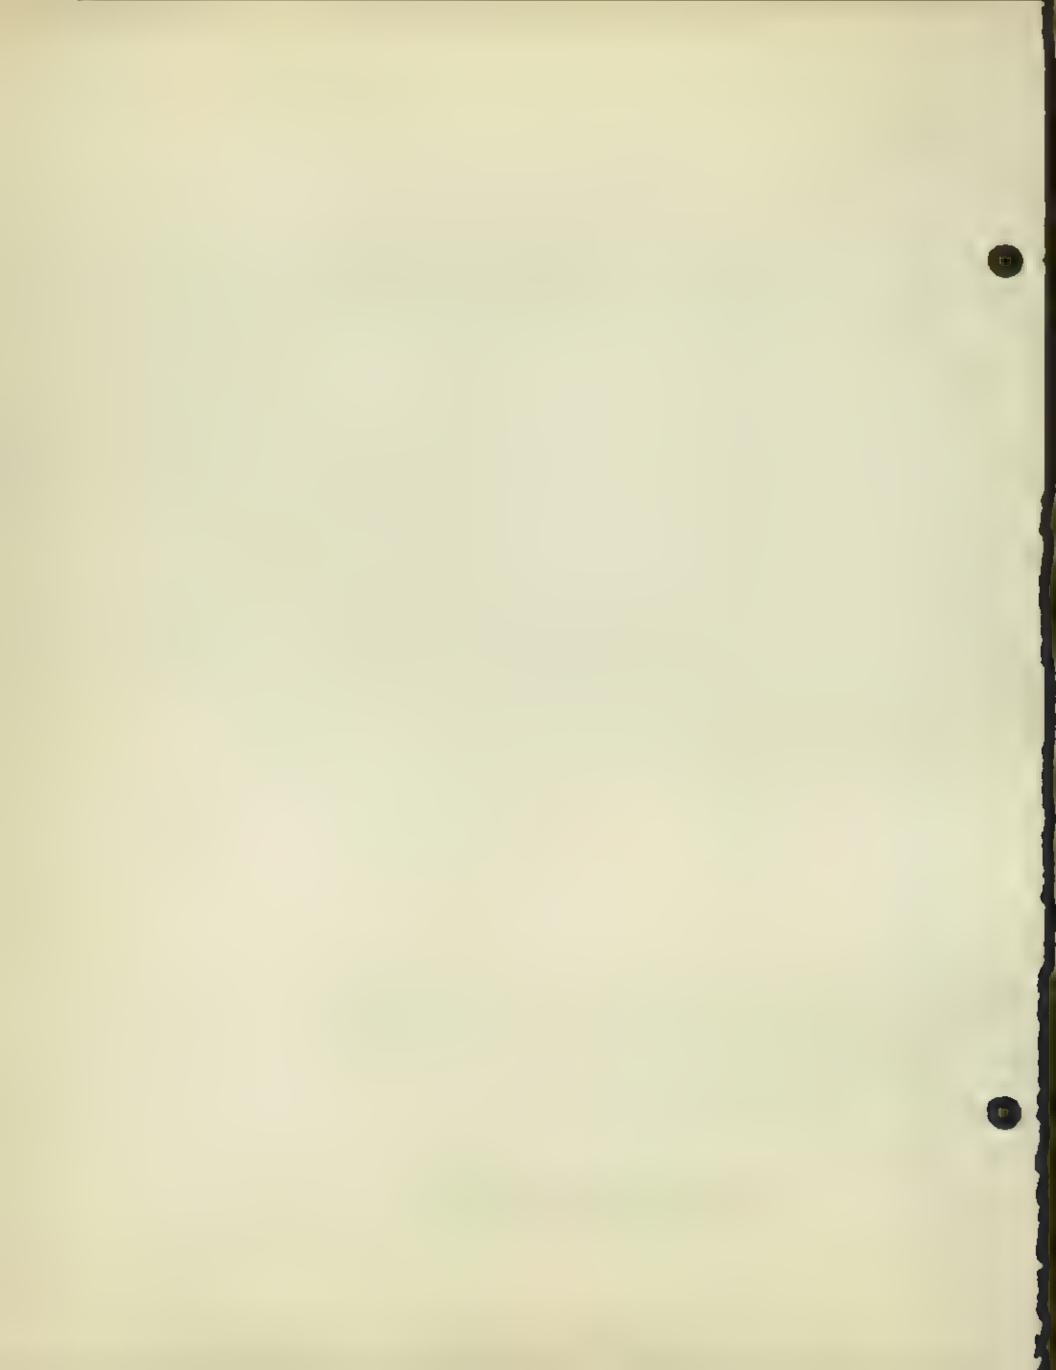

There are many happy events to be worked out in the near future such as: The Father and Son Banquet, a number of hay-rides, a Weiner roast, a fish-fry and the State Convention. There will also be a Farlimentary Procedure and Fublic Speaking Contest.

The chapter is now advised and directed by their new agriculture teacher, Mr. Crosby Crain.

#### THE SCIENCE CLUB

The Greenwood Science Club was organized in December, 1946. It is composed of members of the General Science and Biology The members selected the following officers: classes.

> President ----- Gwen Garrett Vice President ----- Joy Rich Sec.-Treas. --- Jacqueline Butler Sponsor ------Elsie Moreland

The club was organized to create a more active interest in the affairs of science. Their motto, "Scientific minds bring successful futures," carries this aim out very effectively. club song, "honeysuckle Rose" and the club flower "Wild Honeysuckle" fit in very nicely with the study of science.

As class projects, with the cooperation of their sponsor, Mrs. Elsie Moreland, the club members have made posters correrning different phases of biology; notebooks illustrating the study of birds and living things; and notebooks about the physical world in which we live.

#### THE ENGLISH CLUB

The Greenwood English Club was organized in 1945. These are their goals:

- 1. Development of clear and definite thought.
- Development of effective oral and written 2. language.
- Development of skill in conversation. discussion, parliamentary procedure, reading, speaking and story telling.

  4. Appreciation of good literature.

  5. Development of helpful and respectful atti-
- tude toward others.

## A GLANCE INTO THE FUTURE

Let's place a crystal ball on the table and take a trip with our imagination. It is blurred! But ah! It is slowly clearing and we see the large campus of a great university. Look, there is someone walking across the campus! Gee, look who it is!! It's our old friend and former president of the '49 Senior Class, Jackie "Fuzzy" Rose!!! Gosh, look at the co-eds admiring him! Well, let's follow and see what happens. Golly, we're at a huge football stadium!! Oh, let's see if we can find anyone else we know...he's just the head football coach!! Ah, yes, we see someone else. It's our dear old friend, Helen Williams! She's a Professor of Mathematics and half of us can't even add 2 & 2 yet!!

Well, let's journey on some more. Look at that beautiful building over there! Let's go inside. We are now opening the door and walking into a large room. Oh, catch me; I'm seeing pink alephants!! What are elephants doing in here? We are now in another room filled with monkeys!! Well, look at the horses in the next room, and cows in the next one!! Look at those cute little pigs! Look at the dogs! What a precious cat! This is the last room, let's go in and see what's there. Well, well, looks as if Dr. Bill Davidson finally made it!!!

Look at that soldier!! Uh, oh! Get ready to salute, it's General Jackson P. Bryson!!! Just think, he used to be our schoolmate too! Remember??

What is this world coming to? There's even a "Tom" bomb, } invented by our old friend, Jim Tom McCluney!!!

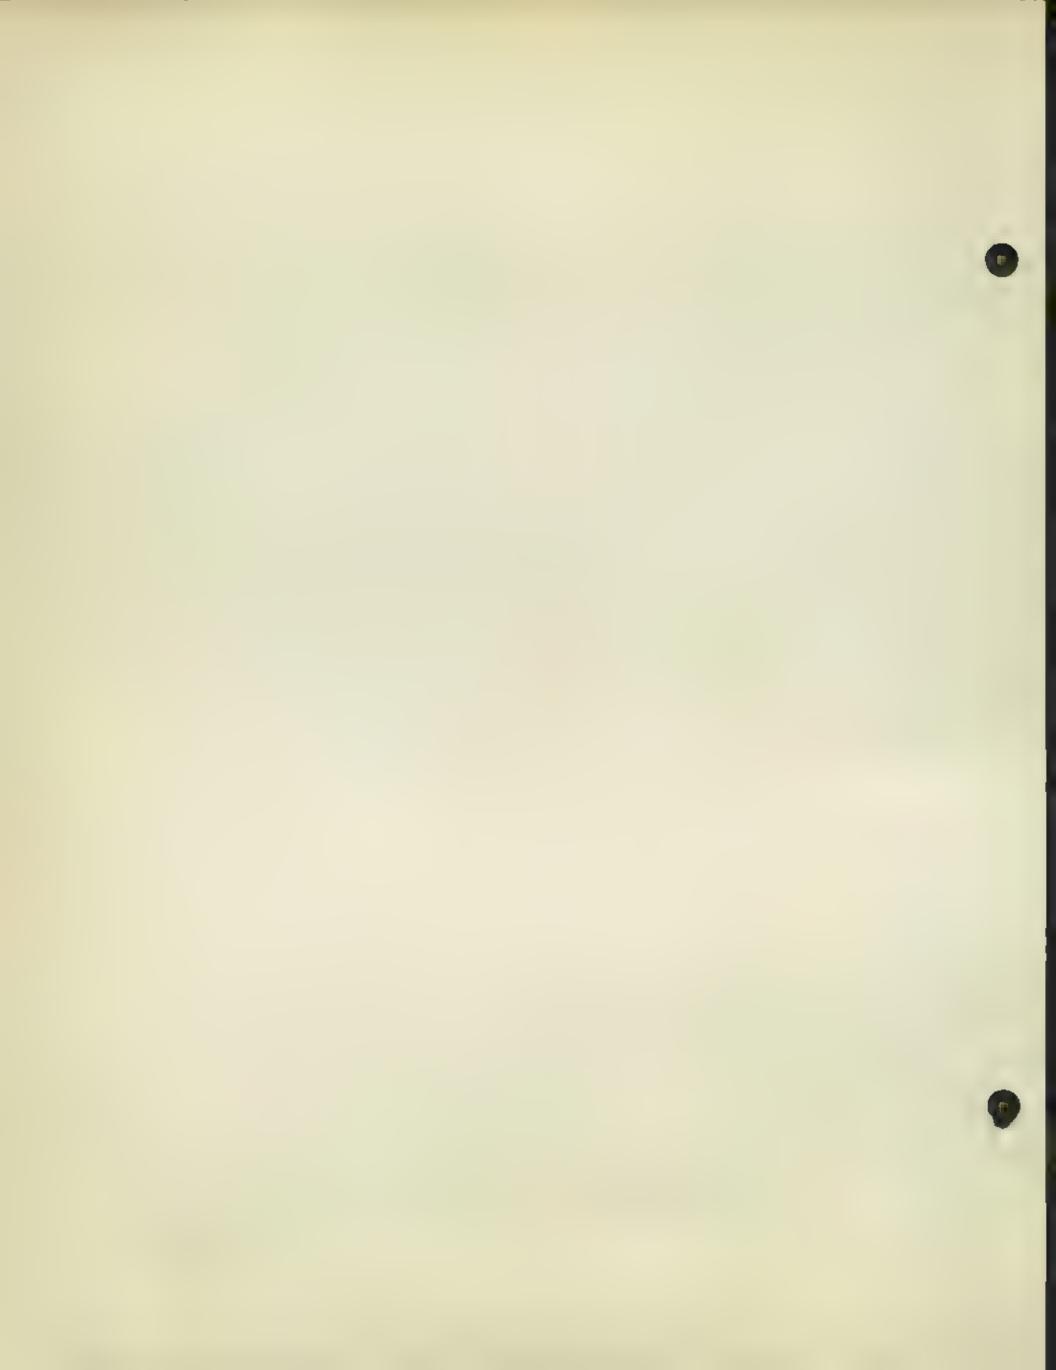

Let's listen to the radio for a while. The sports finals seem very dull, doesn't it? Did he say he was Amos Travis Bogue, Jr.? Oh, we must compliment him for such a good radio voice::

Our taxi is waiting on us, we'd better hurry! If the driver isn't our chum, Cornelius "Man" Witvliet!! Fancy seeing him again after so long a time! O.K., here we are at the train depot. Is everybody here? Say, I just found out who the train engineerman is! It is none other than Robert "Red" Hudson!!

As we pull into New York City, we can hear the jazz jumping down at Carnegie Hall!! Let's humor our curiosity a bit and pay Carnegie Hall a visit. Look who's on the stage!! Lelsie Duncan didn't make a muscle "Springer" after all !!!

Let's take a plane to the west coast now. Did you here them say that we're risking our lives in the hands of two old friends? Joe Phillips is the pilot and Billy Phillips is the co-pilot of this luxurious air-liner! I feel safe, don't you???

Where are we going? We're going to Hollywood, of course!!
Now that we're in Hollywood, let's stroll around a bit. Bless
my soul!! If it isn't Wanda "Punkin" Lloyd that I see in that
M-G-M studio!! I hear that she has the leading role in "School
Days At Greenwood in '49!!

Whew! Let's rest a while! Here's the Upsweep Curl Shop. Let's go in and have a manicure and a shampoo while we talk to the two proprietresses, Rita and Betty Williams. Betty has been married five years to a promising young attorney.

Now, we're on our way home and passing the new First Baptist Church of Dallas, Texas. We notice on the meon sign that the pastor is the one and only Carl Crenshaw, Jr., our friend back in '49. He and his lovely young wife live in the elaborate parsonage on Oak Cliff Drive.

Let's go on down to Houston and take a cruise. My, my, what a beautiful Luxury Liner !! What !!!! Did you say the captain is Lamar Garland??

Now that we are back in Shreveport, let's go have our pictures made and see how we look after a long journey, and of course we'll have to go to Gwen Bradford and Bessie Oden's studio to have them made: I hear they take very nice pictures and such a beautiful finish!! You've never seen anything like it.

I just read in the Shreveport Times Newspaper that Nettie Lafitte is now a model in Paris, France. And did you know that Richard Hammett is now the owner of the Shreveport Times??? Well, he started out young for such a position as that!!

An old friend of Marie Witwliet told me she had gone to Holland several years ago to visit her relatives and didn't come back!! She is happily married to a dairyman there in Holland. Maybe she will come back soon to visit us!!

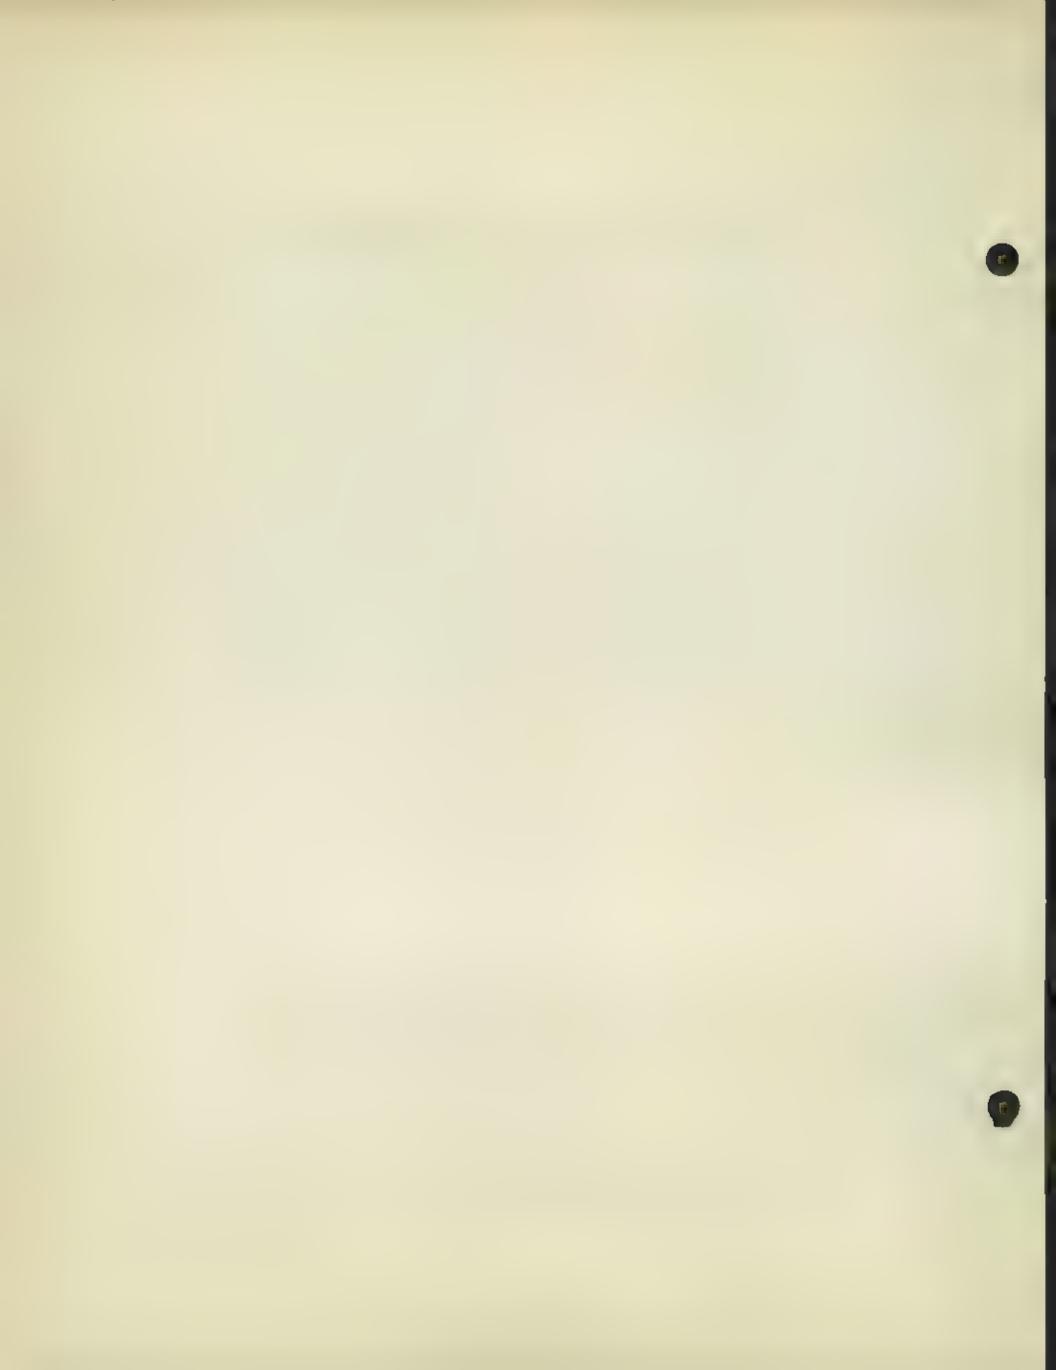

I can't leave you all without mentioning Martha Grace McCluney! She's the sweet little brunette that used to talk all the time in our English class! Remember ?? She is now composing her words into books, as she is one of the most famous novel writers :::

It has been a pleasure taking this journey with such dear old friends that I will never forget. Maybe it won't be too long before we meet again!

Goodbye and Good Luck to all my old school acquaintances :::

Very sincerely yours,

Betty V. Brooks
